

## BUSINESS REVIEW CERTIFICATE

If your company is using QuickBooks\*, Peachtree\*, BusinessWorks\*, Accpac BPI\* or any other “Entry-Level” accounting software, it is likely your business may have out grown these programs.

This entitles your company to a complimentary one hour review of your business operations by a Compu-Solutions Master Consultant performed at your location.

Our goal is to help improve your business and add to your profitability.

Call us today at (925) 372-5954 to schedule your review.

Visit our website at [www.bvwest.com](http://www.bvwest.com) for more details.

*Integrated Business Automation*

# ARE YOU RUNNING YOUR BUSINESS OR IS YOUR BUSINESS RUNNING YOU?

## "Eclectic" Management Problem Semi-automated—No Integration

Most small to mid-size companies **do not** have **information** from Sales, Inventory, Accounting, Purchasing, Shipping, E-Commerce and Management Reporting immediately available. The areas of the business are **not linked together!**

**Sales  
Inventory  
Purchasing  
Shipping  
E-Commerce**

Sales, Inventory, Purchasing, Shipping and E-Commerce are **not updated** per transaction. Information is kept in Word, Excel or other Data-bases and **entered several times** into different software or done manually.

**Accounting**

Books are **posted "SEPARATELY"** to a "QuickBooks" like entry level accounting software.

**Management Reporting**

Vital Information is **not immediately** available for decision-making and customer service.

## Business Management Solution Fully Automated— Automatic Integration

Imagine that **all information** from Sales, Inventory, Accounting, Purchasing, Shipping, E-Commerce and Management Reporting were **immediately available** together for decision-making and customer service. That would **improve** your business operations and **increase** profitability.

**Sales  
Inventory  
Purchasing  
Shipping  
E-Commerce**

Sales, Inventory, Purchasing, Shipping and E-Commerce are **updated per transaction— NO duplicated entry** of information.

Books are posted and **Updated "AUTOMATICALLY"** per Transaction.

Vital Information is **immediately available** for decision-making and customer service.

**Accounting**

**Management Reporting**

## **THE CHOICE IS CLEAR**

We specialize in providing our clients with integrated software solutions that **solve** the "Eclectic" management problem. **COMPU-SOLUTIONS** has the answers for business.
